DETAILED ACTION

Inventorship

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 8, 9, and 18 are rejected under 35 U.S.C. 102(e) as being anticipated by Faletti et al (US 6,209,530 B1).

Regarding claim, the reference of Faletti et al discloses an control system for exhaust gas recirculation system including:

an actuator (84, or 86) responsive to an actuator control signal (108, or 132) to control actuator position (87) [col. 7, lines 2-47; and col. 5, lines 14-30];

means for determining actuator current used by the actuator [see Fig. 3, and col. 5, line 31 through col. 6, line 46]; and

Art Unit: 3747

a control circuit (80) responsive to the actuator current exceeding a maximum actuator current value to modify the actuator control signal (108) in a manner that limits the actuator current to a current value near a minimum current required to sustain the actuator position (87) near a desired position [above discussions and see Figs. 2, and 3].

Regarding claims 8, 9, and 18, as rejected in claim 1.

Allowable Subject Matter

4. Claims 10-17 are allowed.
5. Claims 2-7, 19, and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The copies of U.S Patent are provided.

Yamaguchi et al (US 6,609,493 B2).
